## **ОБЩАЯ ЧАСТЬ**

**1.** Настоящие коэффициенты (индексы) предназначены для определения стоимости оборудования, мебели, инвентаря и принадлежностей в текущем уровне цен.

**2.** Коэффициенты (индексы) пересчета разработаны к средним сметным ценам на оборудование, мебель, инвентарь и принадлежности (в дальнейшем именуются «оборудование») сборника ТСН-2001.13-2 и дополнений к нему.

**3.** Настоящие коэффициенты (индексы) пересчета разработаны в соответствии с основными положениями по разработке территориальных сметных нормативов для г. Москвы ТСН-2001 и методиками:

а) «Положение о порядке разработки и утверждения сметных нормативов, применяемых при определении сметной стоимости объектов капитального строительства, строительство (реконструкция, капитальный ремонт, техническое перевооружение, реставрация) которых финансируется с привлечением средств бюджета города Москвы», утверждено и введено в действие с 24 февраля 2016 года приказом Москкомэкспертизы от 24 февраля 2016 года № МКЭ-ОД/16-5 (в редакции приказа № МКЭ-ОД/21-107 от 24.12.2021 года);

б) «Методика по ведению мониторинга цен на строительные материалы, изделия, конструкции, оборудование, мебель, инвентарь и принадлежности», утвержденная и введенная в действие с 01 февраля 2023 года приказом Москкомэкспертизы от 01.02.2023 года № МКЭ-ОД/23-13.

**4.** Настоящие коэффициенты (индексы) отражают изменение стоимости оборудования на расчетный период с учетом усредненной стоимости оборудования по г. Москве, с учетом стоимости запасных частей, тары, упаковки, реквизита, транспортных расходов на перемещение оборудования от поставщика до приобъектного склада заказчика, заготовительно-складских расходов.

**5.** Коэффициенты (индексы) пересчета применяются к стоимости оборудования ТСН-2001.13-2 в установленном порядке согласно «Общим указаниям по применению ТСН-2001» (ТСН-2001.12) и заносятся в графу 10 «Коэффициенты (индексы) пересчета, нормы НР и СП» формы локального сметного расчета.

**6.** Коэффициенты (индексы) пересчета не учитывают налог на добавленную стоимость.
